# WINTER PROGRAMS 2023

Programs are included with the K-5 Afterschool Elementary Enrichment Program registration.

**All Programs Will Run from 5:00 p.m. - 5:45 p.m.** \*unless otherwise noted.

## Program Descriptions

**Power Hour:** This program helps our members achieve academic success by providing homework help, tutoring, and high-yield learning activities and encouraging members to become self-directed learners. Power Hour is offered Monday-Thursday from 4:00 p.m. to 5:00 p.m. The Club provides members with the space, time and assistance to complete their assignments. Members' participation is tracked for recognition through our Power Hour Incentive Program.

### Healthy Habits

Healthy Habits is the "Mind" component of the Triple Play program. The Healthy Habits curricula focus on making choices that support a healthy eating pattern and physical wellness. This targeted program is made up of interactive practical activities that develop a young person's ability, confidence, and motivation to eat healthy for life.

### Art Club

Here comes DaVinci! This club allows the youth to express themselves and explore their imagination in a warm, relaxed, and welcoming environment.

### Ready to Read

This program will help our youngest readers to be more confident in reading and promote independent and social-emotional learning. We will use an online tool with visuals and worksheets. "Ready to Read" will include, guest readers, reading with dogs, and other fun ways to build vocabulary and a love for reading.

### Daily Challenge

The "Body" component of Triple Play promotes becoming more physically active through a variety of games, cooperative activities, and sports that develop a young person's ability, confidence and motivation to be physically fit.

### Science Club

Science is all around us! At the Club, kids enjoy learning about natural wonders and scientific mysteries, expanding their understanding and sparking their intellectual curiosity. Members take field trips and participate in fun experiments that encourage them to see the world differently.

### Soccer

Let's get the ball rolling this winter! Join your friends in the gym for some different variations of soccer. Don't forget your sneakers!

### Fun At Bat

Fun At Bat is an entry-level bat-and-ball program with an emphasis on character development, functional movement, active play and fun.

### Dance Club

Show your dancing talent and creativity all while having fun with your friends! We will dance to different music and use our creativity during each session!

### Math Racers

Math Racers provides an opportunity for the members to have fun with math in an entirely non-judgmental, and ideally relatively free-flowing environment. Math Racers provides math enrichment activities that are designed to develop a further interest in the study of mathematics. Using the Khan Academy curriculum, members will access lessons throughout the week. Kids will go to the tech center to earn Club bucks by completing a lesson and scoring 75 or above on the quizzes. At the end of every other month, the members will use their club bucks earned to buy prizes..

### SMART Girls & SMART Boys

SMART Girls/Boys is a small-group health, fitness, prevention/education, and self-esteem enhancement program designed to meet the developmental needs of girls and boys. Through dynamic sessions, highly participatory activities, and mentoring opportunities, children will explore their own and societal attitudes and values as they build skills for eating right, staying physically fit, and developing positive relationships with peers and adults.

### STEM

Based on the idea of educating members in four specific disciplines: science, technology, engineering, and mathematics in an interdisciplinary and applied approach, kids will develop their problem-solving skills as well as collaborative work skills, and participate in hands-on experiments.

### Games Room Tournament

Each week, we will have a different tournament in the Games Room for members to compete in. Foosball, table tennis, billiards, Connect Four, and more!
